

I believe that AIR 1 Radio has influenced my life drastically. Being a teenager, I've seen many of my friends make bad decisions based on bad influences on thier lives. Music is one such influence. Had AIR 1 not been there, I would feel alone and angry, just one more rebellious teen. But I'm not, the God that AIR 1 speaks of and believes in has given me hope and a future.

AIR 1 Radio has always been there whenever I'm down or need support as a Christian in this day and age. It helps the community too. Instead of the bad lyrics and annoying, sometimes embarrassing deays, AIR 1 provides a family safe environment for people of all ages to turn to. Not only has the music made an impact, but it has saved the lives of some very desperate listeners. AIR 1 has a pastoral staff always just a phone call away. Many suicidal people have turned to this station for support and help in thier most painful hour, making a fresh start in life instead of taking it (which I might add, some secular music encourages).

If you want a happier, safer, and brighter future for America, I strongly advise you to keep this and other stations like AIR 1 on the air, because if you don't, I fear that there will be more crime, fear, hatred, and sadness than ever before. Instead of having people to turn to, America will feel lost and purposeless. Please, do the right thing and protect the lives of Americans and others everywhere; keep AIR 1 RAdio alive!

Respectfully, Lauren Lancaster
